## EDUCATION

**BE**

B.M.S. College of Engineering

2018 - 2022

## WORK EXPERIENCE

### Full Stack Web Developer

DevTown

08/2022 - 02/2023

*Achievements*

- As an intern at DevTown, excelled as a Full Stack Web Developer by actively applying Agile practices.
- Achieved success by independently creating a web application, demonstrating proficiency in project management and full-stack development, and highlighting my adaptability and problem-solving skills.
- Effectively practiced database system integration, successfully connecting databases with web applications.
- I gained insights into the deployment process by working with various cloud platforms like AWS, Azure, or Heroku.
- I also acquired knowledge of containerization technologies like Docker and worked on CI/CD pipelines to automate the deployment process.

### Full Stack Web Developer

Freelancer

2023 - Present

*Achievements*

- As a freelance Full Stack Web Developer, applied Agile practices adeptly to deliver successful web applications for clients.
- The experience highlights strong project management skills, full-stack development expertise, and a track record of client satisfaction, establishing valuable assets for future projects.
- Expertise expanded to mobile app development, resulting in the successful delivery of cross-platform Android and iOS applications, meeting client requirements and user expectations.
- Agile methodologies were applied to ensure efficiency and quality throughout the development lifecycle.
- Used JavaScript frameworks such as Nextjs to create dynamic and responsive websites, optimizing user experiences across various devices.
- Successfully developed an e-commerce platform from the ground up, featuring secure payment gateways, user authentication, and seamless product browsing.
- Applied analytical and creative problem-solving skills to address technical challenges and optimize web application performance.
- Prioritized user-centered design principles to create intuitive interfaces and seamless user experiences.

SASS/SCSS Material UI Git Github  
Agile methodologies Time Management  
Active Listener Problem Solving Leadership  
Decision Making

## PERSONAL PROJECTS

E-commerce Website (02/2023 - 04/2023)

- Created a MERN stack e-commerce website for my client with real time payment system.

NFT Mobile App (04/2023 - 04/2023)

- Developed a React Native mobile app for NFTs. The app allows users to explore, buy, and sell unique digital assets seamlessly on both iOS and Android devices.

AI Image Generator (06/2023 - 06/2023)

- Personal project combining AI and web development. Utilizes MERN stack for frontend and backend.
